

## **Intro**

Welcome to Paradigm Psychiatry! We are a psychiatric outpatient medication management facility. We treat children, adolescents, and adults. A psychiatric evaluation is done first by diagnostic interview, then regular follow up appointments to ensure the prescribed medications are working effectively. A referral to therapy can be provided if needed. To serve you better we are now offering Telemedicine services, you may see your psychiatrist from the comfort of your own home during these difficult times. Your mental health is important, and we are here to help you every step of the way.

Please contact our office to schedule an appointment now!

Same Day appointments may be available!

## **Click on [Disorders]**
